An Owner may build or install on such Owner's Lot security measures, including but not limited to a security camera, motion detector, or perimeter fence, provided that such Security Measures:

1. Do not require placement or installation of a security camera by an Owner on any property other than the Lot owned by such Owner and said camera does not violate privacy of neighboring Owners based on a camera being misdirected or security lighting that shines into neighboring Owner's Lots causing a nuisance or creating a disturbance; and
2. Any security fencing installed by an Owner on its Lot must comply with the Design Guidelines then adopted by the Architectural Reviewer or Architectural Control Committee of the Association and otherwise comply with the requirements and restrictions set forth in the Declaration.

An Owner may build or install swimming pool enclosures provided that:

1. The design and appearance of any "swimming pool enclosure" (as defined below) that is visible from the Street or Common Area adjacent to the Lot on which such swimming pool enclosure is located must be six feet (6') or less in height, black in color, and consist of transparent mesh set in metal frames, unless otherwise approved in writing by the Architectural Reviewer.
2. In no event shall the Architectural Reviewer prohibit or restrict an Owner from installing on such Owner's Lot a swimming pool enclosure that conforms to applicable state or local safety requirements. A "swimming pool enclosure" means and refers to a fence that (1) surrounds a water feature, including a swimming pool or spa located on a Lot; (2) consists of transparent mesh or clear panels set in metal frames; (3) is not more than six feet (6') in height; and (4) is designed not to be climbable.
